Commentary on the 2021 Unaudited Half Year Results

The TotalEnergies Marketing Kenya Plc Board of Directors is pleased to announce the unaudited half year results for the period ended 30th June 2021.

Operating environment

The Kenyan economy in the first half of the year has witnessed some recovery compared to the same period last year which was greatly impacted by COVID -19 health crisis. Restrictions related to the pandemic have relatively eased positively impacting the business environment. During the period, international oil prices have been on the rise leading to increased fuel prices in the country.

Financial Performance

The Company realized outstanding results with a profit before tax of KShs 2,483 million (2020: KShs 1,551 million) and positive cashflows in the first half of the year resulting from growth in sales revenues, stable unit margins reflecting optimization of fuel stocks, diversified revenue segments and prudent management of fixed costs.

Net sales increased by 10% resulting majorly from increased sales. The Gross profit increased by 17% emanating from increased sales and stable unit margins thanks to price risk management model. Other Income increased by 30% in 2021 compared to 2020 in line with continued investments in diversification activities in the Company's retail outlets.

Operating expenses remained at the same level compared to last year resulting from cost discipline adopted by management to be more efficient and agile.

The Foreign exchange loss decreased substantially to KShs 3 million (KShs 81 million in 2020) due to management of transactions in foreign currency and stability of the Kenya Shilling against the US Dollar in the period.

The Company's cashflow position remained strong with effective management of working capital.

Dividend

The Board do not recommend a payment of interim dividend.

Future Outlook

The economic environment remains challenging in the short-term owing to the resurgent of new waves and variants of Covid 19. The Board and Management have taken measures to mitigate the impacts of Covid 19, and in line with the long-term strategies geared towards capturing growth opportunities, the Board is confident of positive results in the remaining part of the year.
